

MAJID ALJISHI

Lead Front-End & Mobile Engineer

 Aljishi89@gmail.com

 +966596882485

 Dammam, Saudi Arabia

 [LinkedIn Profile](#)

Accomplished Lead Engineer with over 8 years of experience in architecting and deploying high-scale Expo, React Native, and Next.js applications. Proven track record at Zain Saudi Arabia leading front-end teams, automating complex release lifecycles, and writing enterprise-grade code. Expert in modern state management, performance optimization, and building seamless, localized user experiences for the KSA market.

TECHNICAL EXPERTISE

Front-End Core

Next.js, React, Expo, Expo Router, React Native, TypeScript.

State & Data Flow

Redux Toolkit, Redux-Saga, React Query, RTK Query, Reselect.

UI & Design Systems

Tailwind CSS, Tamagui, UI Kitten, Framer Motion, Lottie, Reanimated.

Engineering Excellence

Jest, React Testing Library, New Relic, UXCam, Firebase Suite, FlashList.

Automation & Architecture

Shell Scripting, Fastlane CLI, Expo EAS, CI/CD

PROFESSIONAL EXPERIENCE

Zain Saudi Arabia

2020 – Present

Lead Mobile & Front-End Engineer

- **Active Full-Stack Development:** Perform end-to-end coding for high-scale applications in Expo/React Native and Next.js, delivering reusable and testable software.
- **Engineering Leadership:** Lead a high-performing Front-End team, managing delivery through task grooming with business stakeholders and technical estimation.
- **CI/CD Architecture:** Architected and developed a custom automation toolset using Shell scripts and Fastlane CLI to streamline the software release lifecycle.
- **Automated Workflow Integration:** Engineered Jira-integrated automated builds and Slack notification triggers to synchronize development progress with project tracking.
- **Multi-Platform Deployment:** Automated TestFlight and Google Play builds, alongside Firebase distribution and Code Push deployments.
- **Release Operations:** Own the release distribution activity, managing environment parameters, version bumping, and build cache optimization.
- **Product Vision:** Partner with UX/UI designers to translate brand identity into seamless, high-performance user experiences.

2018 – 2020

Senior Software Developer

- Developed core mobile features and maintained high-quality codebases for cross-platform hybrid and native applications.

2018 – 2018

Dr. Sulaiman AL Habib Medical Group

Senior Front-End Developer

- **Video Integration:** Developed and integrated WebRTC-based video conferencing interfaces into healthcare web and mobile solutions.

- **Cross-Functional Collaboration:** Bridged patient-facing web portals with internal medical systems for a unified experience

2017 – 2018

NEAR MOTION

Front-End Application Developer

- **Indoor Navigation:** Built high-fidelity mobile interfaces for navigation systems utilizing Bluetooth beacons and proximity triggers.
- **SDK Development:** Developed reusable positioning libraries for React Native to enhance platform SDK capabilities.

EDUCATION

2014 – 2014

Northern Kentucky University

Bachelor of Science in Electronics Engineering Technology

2010 – 2010

Jubail Industrial College

Associates Degree of Electrical Power Engineering Technology

CERTIFICATIONS

- React Native: Advanced Concepts.
- The Complete React Native and Redux Course.
- Embedded Systems - University of Texas (edX).
- Learn Ionic 3 From Scratch.
